Solution Highlights

YOUR SAFETY PLANS IN THE RIGHT HANDS

A GUIDE TO MOBILE EMERGENCY PREPAREDNESS

TABLE OF CONTENTS

PLANS

Online Portal

EASY SETUP & LAUNCH

Do your plans cover multiple locations, different departments or specific individuals?
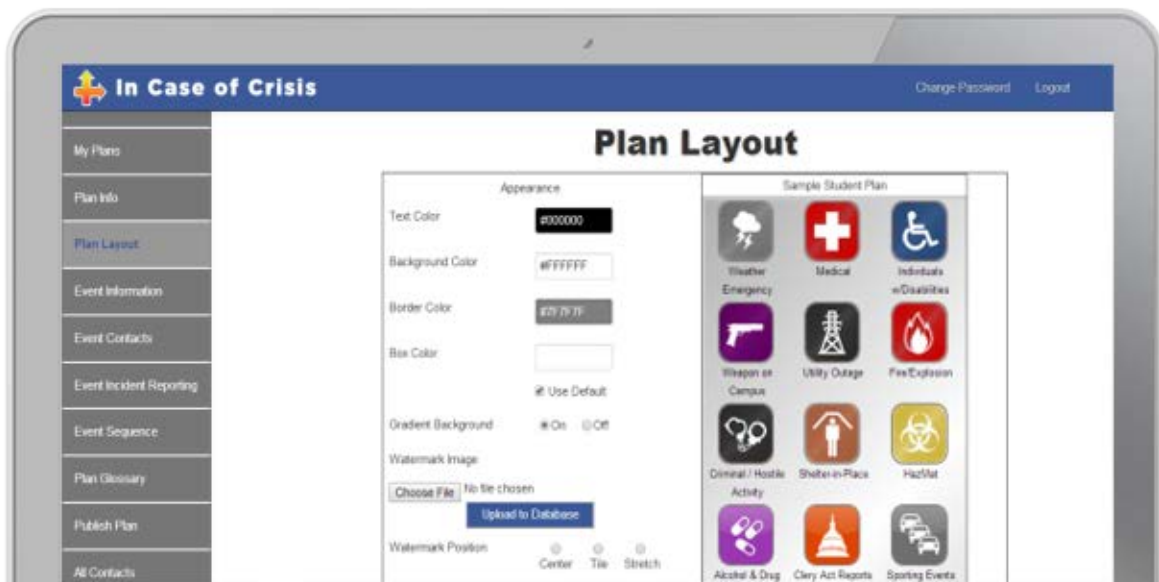

Now, building your safety app in the OnlineCenter and publishing it to a mobile application is easier and more intuitive than ever. Whether you are setting up one plan or multiple plans , In Case of Crisis was developed to leverage mobile technology to ensure ALL stakeholders have the information they need when a crisis occurs.

CUSTOMIZE YOUR PLAN

Do want a mobile app that will match your brand and includes content that relates to your business?

You are in luck! When you purchase our safety app you can include as much content as you would like and build it to match your brand. We will provide you with a library of icons and templates for you to choose from or you can upload your own to create a more personalized experience.

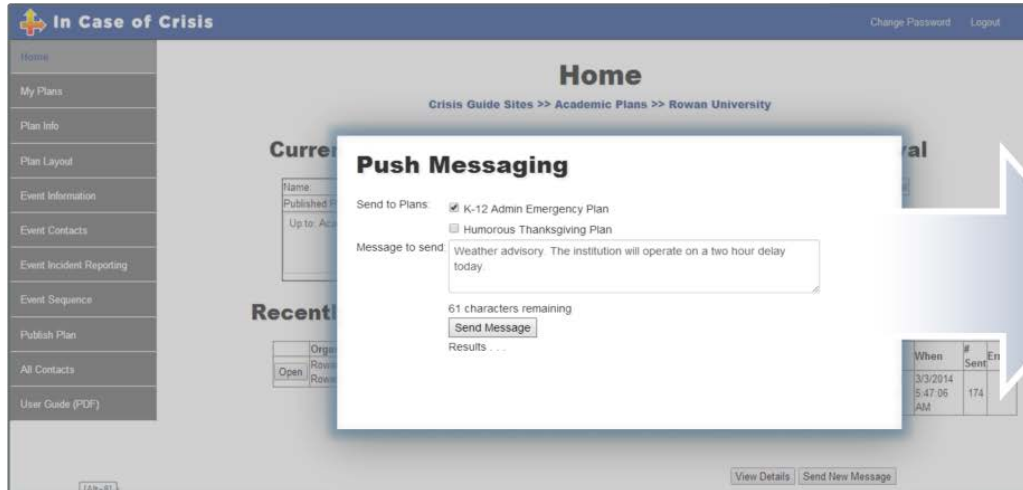

YOU CAN INCLUDE SOME OF THE FOLLOWING FEATURES:

- SAFETY INSTRUCTIONS
- SITUATIONAL PROCEDURES
- INTERACTIVE MAPS
- MEDICAL INSTRUCTIONS
- ROLL CALLS

- INSTITUTIONAL COMPLIANCE
- SITUATIONAL CONTACTS
- WEB CONTENT
- TRAVEL GUIDELINES
- EVACUATION ROUTES

PUSH NOTIFICATIONS

SEND AN UNLIMITED AMOUNT OF PUSH NOTIFICATIONS!

Did you know that a push notification is usually seen within 10 seconds?

Whether it's an emergency or an informational update, it's critical that you have a way to easily communicate with your people. With our OnlineCenter you can initiate a push notification to one or many plan groups in second.

Create Incident reporting forms with GPS and pics

Send an unlimited number of push notifications

"

In Case of Crisis helped us develop and deploy a customized crisis app for our team members traveling overseas to support Team USA as they trained for the London 2012 Olympic Games. In addition to providing us with great app functionality, their collaborative approach helped us create a comprehensive resource to ensure our employees had the information they needed at the touch of a button.
